Collaborative (MOU) Letter

I am pleased to state that Dr **Manasa. D. J.**, Assistant Professor of Department of Studies in Botany, Davangere University, Shivagangotri, Davangere-577 007, Karnataka, has been one of the research collaborator in my research team both at Mangalore University and Yenepoya (Deemed to be University) since 2011. Our research collaboration on plant natural products, plant tissue culture, nanotechnology and the pharmacological activities of phytoconstituents emanated in good publications in the journals of repute.

It was indeed, my fortune to have a collaborator like Dr Manasa, with the original thinking ability, writing skills and executing the work in a systematic manner and I wish the collaboration will continue in the coming years related to original research, application for grants, publication, organising conferences, exchange programmes, contributing book chapters etc., wherein all the host Institutes will get the benefit of collaborative work.

K. R. CHANDRASHEKAR
