A report on One day International Webinar on
“Higher Education and Research Opportunities in EU and France”
Organised by
Food Tech Forum
in association with
**Association of Food Scientists & Technologists (India), Davangere
Chapter**

Preamble:

A One day International webinar on “Higher Education and Research Opportunities in EU and France” has been conducted on 02 July 2021 using the online platform “Cisco WebEx” organised by Food Tech Forum in association with Association of Food Scientists & Technologists (India), Davangere Chapter, to provide a detail account on the openings and opportunities in higher education and research carrier in European countries and specially in France for Science and students of Food Science Technology students.

Participant’s Profile:

An informative brochure is widely circulated on 26th June 2021 among the different groups and using social media and registration kept open up to 1st July 2021 morning. One hundred four students from the various department of the Davangere University were registered.

Professor Gayatri Devaraja, Registrar, Davangere University, addressed gathering and motivating students, researchers, and faculties to take the opportunities in higher education and research carrier in European countries to improve the professional carrier.

Honourable Vice-Chancellor **Prof. Sharanappa V. Halase**, Davangere University, presided over the function in his presidential address motivated the students and faculties of Davangere Universities to grab the opportunities in higher education and research carrier and collaboration with European countries and specially with Food Scientists and Researchers.

After the inaugural function, **Dr. Srini Kaveri**, Director of CNRS India Bureau, French embassy, New Delhi, India delivered his keynote on "Higher Education and Research Opportunities in EU and France" in connection with the opportunities in higher education and research carrier in European countries to improve the professional carrier. He explained, how earlier from Indian subcontinents used the opportunities with statistics. He also focused the various fellowships available for the Indian students, researchers and faculties. He had provided in details related to opportunities for the post-doctoral studies for the PhD., completed students in various institutes of the European countries and France. He also interacted with students and faculties of the Davangere Universities and answered all the queries raised.

The entire program hosted by Dr. Shankar J., and Dr. Paramesha M., moderated session, respectively. Prof. Ravikumar Patil H.S, Chairman, DOS in Food Technology, Davangere University welcome the gathering. Dr. Pramod S N, proposed a vote of thanks. The entire program was technically co-ordinated by Dr. Sharath R and the faculties of the DOS in Food Technology, Davangere University involved actively conducting the program grand success.

Report by:

Dr. Paramesha M.,

Associate Professor
Coordinator, Food Tech Forum,

Presentation of higher education and research opportunities in EU and France

1 message

Thu, Jun 3, 2021 at 2:01 PM

Srini KAVERI <Srini.Kaveri@cns.fr>

To: vodu_dvg@yahoo.in

Cc: parameshbt@gmail.com, paramesham@davangereuniversity.ac.in

Dear Professor,

Honorable Vice-Chancellor,

Greetings from CNRS Bureau in India!

In line with my conversation with Dr Paramesh, I would like to explore with you the possibility of presenting the opportunities of higher education and research in the EU and in particular in France.

Such a presentation would be beneficial for the students and young researchers of the university who may be willing to explore the possibility of establishing scientific collaboration in Europe.

After hearing from you, I will coordinate with Dr Paramesh regarding the dates and other potential speakers.

With warm regards

Srini

Srini V. KAVERI
 Director, CNRS Office in India
 Embassy of France
 IFI, 2, Abdul Kalam Road, 110011 New-Delhi - India
 Office: +91 11 3041 7280 | Mobile: +91 88 2613 8740
 E-mail: Srini.Kaveri@cns.fr

Dr. Srin Kaveri Profile

Srin Kaveri, received his Veterinary Medicine degree in Bangalore India, and his Ph.D. at the Pasteur Institute, Paris. Dr. Kaveri carried out his post-doctoral research training with Professor Heinz Kohler at IDEC pharmaceuticals and University of California, San Diego, USA.

Currently he leads a CNRS research team in Paris. Dr. Kaveri's laboratory has been involved with the basic and applied aspects of research on immunopathology and immunotherapy. He has published over 400 research papers in top international journals.

Since 2015, Dr Kaveri is the Director of CNRS in the French embassy in New Delhi. He is actively involved in enhancing Indo-French scientific cooperation.

BioVERS'21 organized by Bio-Rad in association with AFSTI, Davangere Chapter and Food Tech forum, Department of Food Technology, Davangere University

BIORAD Virtual Educational Road show "BioVERS'21" in association with AFSTI and Food Tech Forum, Department of Food technology, Davangere University. BioVERS'21 was ideated and created for scientists and researcher in this pandemic time where we navigate through the new equipments and bio-methods with our digital capabilities. In this roadshow, you will be able to interact with and have a taste of state-of-the-art technologies across five main categories: 1. Proteomics, 2. Western Blotting and Imaging Solutions, 3. qPCR Solution, 4. SARS-CoV-2 Solution, 5. Other new technologies such as NGS, single cell, droplet digital PCR, cell sorting, flow cytometry and antibodies. Apart from our interactive virtual exhibition, we have other fun activities lined up for you. Join us in some educational quizzes and stand to win attractive prizes.

DEPARTMENT OF STUDIES IN FOOD TECHNOLOGY

Two Days National Webinar On

“Recent Trends in Food Science and Technology”

11th and 12th June 2021

Organised by AFST(i), Davangere Chapter & in Association
with Food Tech Forum

CHIEF PATRON

Prof. S. V. HALSE

VICE CHANCELLOR

PATRONS

Prof. GAYATHRI DEVARAJA
REGISTRAR

Prof. ANITHA H. S.
REGISTRAR (EVALUATION)

Mrs. PRIYANKA D.
FINANCE OFFICER

Prof. VADLIPUDI KUMAR
DEAN, FACULTY OF SCIENCE

Day-01: 11-06-2021

Key Note Address By

Dr. AVINASH P SATTUR

**Chief Scientist & Head, Dept. of Microbiology
And Fermentation Technology, CSIR-CFTRI, Mysuru**

“It’s already known!”: CFTRI Case Studies”

Dr. R. ANANTHAN

**Scientist-D / Assistant Director, Food Chemistry,
National Institute of Nutrition, Telangana**

**“Indian Food Composition Tables and its
Significance”**

Day-02: 12-06-2021

Dr. Vidyashankar Srivatsan
Scientist, Department of Biotechnology,
CSIR-Institute of Himalayan Bioresource Technology,
Palampur, Himachal Pradesh, India

**“Food and nutraceutical applications of Algae
and industrial perspective”**

Dr. Vidyashankar S
Head, Research & Development,
Britannia Pvt. Ltd. Bangalore, India.

**“Food supplements and its physiological and
health relevance at different age groups”**

DAVANGERE UNIVERSITY

DEPARTMENT OF STUDIES IN FOOD TECHNOLOGY

Shivagangotri, Davanagere-577007, Karnataka, India

A report on Two day National Webinar on “RECENT TRENDS IN FOOD SCIENCE AND TECHNOLOGY”

Organised by

Food Tech Forum

in association with

**Association of Food Scientists & Technologists (India), Davangere
Chapter**

Preamble:

A two days National webinar on “Recent Trends in Food Science and Technology” has been conducted on 11th and 12th June 2021 using the online platform “Cisco WebEx” organised by Food Tech Forum in association with Association of Food Scientists & Technologists (India), Davangere Chapter, to provide and spread the knowledge about recent developments and techniques in the field of Food Science Technology.

Participant’s Profile:

An informative brochure is widely circulated on 6th June 2021 among the different groups and using social media and registration kept open up to 10th June 2021 morning. Five hundred fifty-nine participants from the various Universities/College/Industries/Hospitals and research institutes and different parts of India was registered. Among 560 participants, faculty members/ Research students/Dieticians/Industrialist/PG Students were registered.

On the inaugural function, **Dr. Avinash P Sattur**, Chief Scientist and Head, Microbiology & Fermentation Technology Dept, CSIR-CFTRI, Mysore, as Chief Guest. In his inaugural address, he emphasised the role of Food Scientist and Food Researchers during the Covid-19 pandemic situation. He also enlightens the position of Food Scientist and Food Researchers in transitional research to bring out the valuable product.

Professor Gayatri Devaraja, Registrar, Davangere University, addressed gathering and motivating students, researchers, and faculties to take the food sector as a professional carrier.

Honourable Vice-Chancellor of the Davangere University, **Prof. Sharanappa V. Halase**, presided over the function. Honourable Vice-Chancellor, in his presidential speech, he praised the role and function of Food Scientists and Researchers.

After the inaugural function, **Dr. Avinash P Sattur** delivered his keynote on **Innovating from “It’s already known!”: CFTRI Case Studies** in connection with the recent development in food science and technology. In his speech, he explained the importance of transitional research, and he enlightens the gathering by his research studies with facts. He discussed four different product and their working mechanisms. He explained how is product *A-hango* help to come out from the alcoholic hangover and he also explained how hangover happens and the physiology Etc. *Dolymix* is another product released by his research team which helps get more idlyes with a soft texture. *NOX* is another sweet product that is a very nutritive and immunity-boosting product that helps to find the pandemic situation like the present day. He details information regarding *Encircle*, which is a healthy food which mainly made to fight against cancer and is found to be effective in the cancer patient. He informed, he got patents for the above-said products. Apart from this, he also worked on fungal fermented food products, new enzyme inhibitors from the microbes Etc.

The second session was addressed by **Dr. R. Ananthan**, Scientist-D / Assistant Director, Food Chemistry, National Institute of Nutrition, Hyderabad-500 007, Telangana. Dr. R. Ananthan discussed the **“Indian Food Composition Tables and its Significance”** and enlightened the gathering with the statistical and facts regarding Indian Food composition. He also explained the difference in the food styles and composition in the different parts of India.

On the second day of webinar (12th June 2021), **Dr. Vidyashankar Srivatsan** Scientist, CSIR-Institute of Himalayan Bioresource Technology, Palampur, Himachal Pradesh, India, on **“Food and nutraceutical applications of Algae and industrial perspective”**. Dr. Vidyashankar Srivatsan explained the detail on algae and its importance along with growing condition and product recovery. He also added the important nutraceuticals, pigments and other uses of microalgae. He illustrated the role of microalgae in future application as nutrients and its augmentation with different food ingredients.

Dr. Vidyashankar S. Head - R & D Excellence and Capability Building Britannia Pvt. Ltd. Bangalore, Karnataka, India, delivered the talk on **“Food supplements and its physiological**

and health relevance at different age groups". During his talk, he enlightens the role of food supplements for good health. During his talk he enlighten on nutrition, physiological aspects, malnutrition and food style oriented pathological consequences. He also makes a note that different age group people required a different kind of nutrient supplements. Meanwhile, the Food supplements will help to maintain a robust immune system and good physiological status.

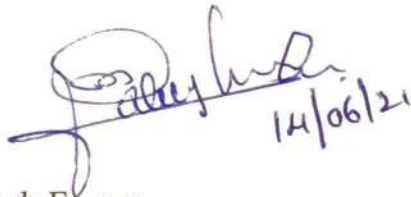

All the session was interactive, and the speakers answered many queries raised by the participants.

Dr. Paramesha M., Dr. Sharath R., Dr. Santhosh Kumar S.R., and Dr. Pramod S.N., moderated different sessions, respectively. Dr. Sharada Kallimani was invoked the occasion, Prof. Ravikumar Patil H.S, Chairman, DOS in Food Technology, Davangere University welcome the gathering. Dr. Shankar J. proposed a vote of thanks. The entire program hosted by Dr. Shankar J., Dr. Venkatesh, and Dr. Sadashiv S.O., helped in solving the technical issues. Dr. Sharath R co-ordinated the entire program with the support of the faculties of the DOS in Food Technology, Davangere University.

Jointly Organize

World Food Day-2021

Webinar on the theme

“OUR ACTIONS ARE OUR FUTURE”

**BETTER PRODUCTION, BETTER NUTRITION, A BETTER ENVIRONMENT
AND A BETTER LIFE**

Key note Address By

Dr. N.B. Thippeswamy

Professor, Dept. of Studies & Research in Microbiology
Kuvempu University, Jnanasahyadri,
Shankargatta, Shimoga, Karnataka

“The value of food and its management”

Invited Speaker

Dr. Rashmi Patil

Dietician
SS Institute of Medical Sciences &
Research Centre, Davangere

“You Are What You Eat”

Invited Speaker

Dr. M.B. Mahesh

Associate Professor, Dept. of Food and Nutrition,
Yuvaraja's College (Autonomous) University of
Mysore, Mysuru

*“Our Actions Our Future-food, Floods
& Famines”*

Date: 16 October, 2021

Time : 10.00 AM

Free Registration link: <https://forms.gle/vJ1p97A7dn8AmvS67>

A report on **World Food Day-2021, Webinar**
on the theme

**“OUR ACTIONS ARE OUR FUTURE”
BETTER PRODUCTION, BETTER NUTRITION, A BETTER ENVIRONMENT AND
A BETTER LIFE**

Organised by
Food Tech Forum
in association with
Association of Food Scientists & Technologists (India), Davangere Chapter.

Preamble:

A One-day national webinar on “World Food Day-2021” has been conducted on 16th October, 2021 using the online platform “Google meet” organised by Food Tech Forum in association with Association of Food Scientists & Technologists (India), Davangere Chapter, Davangere to celebrate the world food day.

Participant’s Profile:

An informative brochure is widely circulated on 13th October 2021 among the different groups and using social media and registration kept open up to 15th October 2021 Night. One hundred and sixty-six participants from the various Universities/College/Industries/Hospitals and research institutes and different parts of India were registered. Among 166 participants, faculty members/ Research students/Dieticians/Industrialist/PG Students were registered and participated.

The day programme was started by the prayer by Ms. Shalini. **Dr. Pramod S. N.** Chairman, DOS in Food Technology, welcomed the gathering and highlighted the importance of celebration of World Food Day in brief.

Next the highlights about the Food technology Forum were delivered by **Dr. Sadashiv S. O.**, where he has mentioned the major events organised in the last year.

Later, **Prof. Ramalingappa**, Dean, Faculty of Science and Technology, Davangere University and Chairman, DOS in Microbiology, addressed the gathering and shared his happiness for the event.

Prof. Gayatri Devaraja, Registrar, Davangere University, addressed gathering and motivated students, researchers, and faculties, highlighted the importance of food science research in the present era.

After the inaugural function, **Dr. Thippeswamy N. B.**, Professor, Department of Studies & Research in Microbiology, Kuvempu University, Jnanasahyadri, Shankargatta, Shimoga, Karnataka, India delivered his keynote on "**The Value of Food and its Management**". He has explained in depth on the value of food and its management with the proper research data. This session was moderated by **Prof. Ravikumar Patil H. S.** DOS in Food Technology, Davangere University.

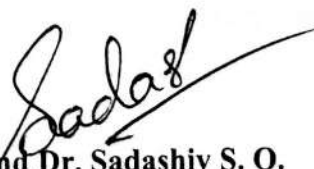

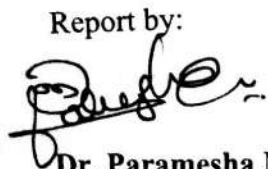

The second session was addressed by **Dr. Rashmi Patil**, Dietician, S. S. Institute of Medical Sciences & Research Centre, Davangere. Dr. RashmiPatil discussed on the topic "**You Are What You Eat**" and enlightened the gathering with the statistical and facts regarding Indian Food composition and daily diet. This session was moderated by **Dr. Sharath R.**, DOS in Food Technology, Davangere University.

The third session was addressed by **Dr. Mahesh M. S.**, Associate Professor, Department of Food and Nutrition, Yuvaraja's College (Autonomous) University of Mysore, Mysuru, on the topic "**Our Actions Our Future-Food, Floods & Femines**". This session was moderated by **Dr. Veeresh S. J.** DOS in Food Technology, Davangere University.

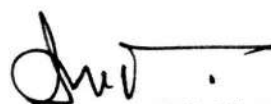

Finally Vote of Thanks was proposed by **Dr. Paramesha M.**, Co-ordinator, Food Tech Forum, DOS in Food Technology, Davangere University.

The entire program hosted by **Dr. Poornima V.** Further, the program was technically co-ordinated by **Dr. Sharath R.**, & **Dr. Venkatesh** and the faculties of the DOS in Food Technology, Davangere University involved actively conducting the program grand success.

Report by:

2020-21**

About the Study Tour

Department of Studies in Environmental Science, Davangere University organized a Study visit to Sushant Environmental Technologies (Biomedical Waste Common Treatment Facility) Amaravathi, Harihara, Davanagere (D), Karnataka on 31st December 2021. Department 1st Semester and 2nd semester total 50 students were actively participated and Dr. Veeresh S J, Assistant Professor led the group.

Objectives

- To provide the knowledge about the Bio-medical Waste Management
- To know how the Bio-medical Waste Management be a remedy for our Environmental issues.
- To learn methods of Bio-medical Waste Management.
- Knowledge of various equipments used in Bio-medical Waste Management and principle of working.

Dr. Veeresh S J given instruction and precautions to students before entering to the treatment facility. Mr. Harish, Plant In-charge welcomed and given information on each unit working principle and their importance to Bio-medical Waste Management.

The Biomedical waste treatment plant was located at Amravati (P) , Harihar (T), Davangere Dist, we visited the plant at 10.30 AM with all our safety measures by wearing

Masks and Aprons we entered the plant and we met the plant in charge Mr. Harish Then he gave us the information about Biomedical waste treatment its collection , segregation, and next process and he said that for entire Davangere Dist there is only one biomedical waste treatment plant that was the place we visited , this plant was under Public Private Partnership that means government do funding for maianataince of biomedical waste treatment plant and it is looked after by private sector. First mainly we learnt about the biomedical waste collections bag and its color indication we saw yellow, red, white color bags which contained the waste, where as white bag indicates it as a Sharp objects waste like needles , scalpels, lancets etc and yellow bag waste for incineration and red bag waste as Disposable Items and and blue bag for glassware's.

Next he explained about the incineration process where we saw Two Chambers for incineration

- Primary
- Secondary

Primary Chamber

Secondary Chamber

In primary chamber it contains Temp about 800 deg Celsius and the waste were burnt Directly and its soot particles moves on to secondary chamber were the partially burnt waste at primary chamber are burnt completely with Temp about 800-1200 deg Celsius and next moves to scrubber where the dust particles are purified using water and allowed to enter atmosphere using chimney at 30 meter from ground level , the water which is used to remove dust particles are recycled using filtration process .

After watching incinerator we went to see recycle process of biomedical waste , where the recyclable waste was washed 2-3 times and dried and inserted in autoclave and sterilized it and removed and inserted in to shedder where the waste chopped in to small pieces and collected , and Mr. Harish said that the chopped pieces will be sold by tender.

Shedder

After watching the plant some of the students asked the doubt to Mr. Harish and got clarified and we left the place by thanking biomedical waste treatment plant in charge Mr. Harish and his Co-workers for allowing us to visit their Plant and for giving us valuable Information.

Shedder

Conclusion

It was a great experience to visit the Sushant Environmental Technologies (Biomedical Waste Common Treatment Facility) Amaravathi, Harihara, Davanagere (D), Karnataka. Students got lot of information regarding the Biomedical Waste Common Treatment Facility.

Students have learnt more about the importance of Common Biomedical Waste Common Treatment Facility for pollution reduction from the biomedical waste. Students thoroughly gain the knowledge on steps involved in Biomedical Waste Common Treatment and working principle of each unit.

About the Study Tour

Department of Studies in Environmental Science, Davangere University organized a Study visit to Harihara City Drinking Water Treatment Facility, Harihara, Davanagere (D), Karnataka on 2pm 31st December 2021. Department 1st Semester and 2nd semester total 50 students were actively participated and Dr. Veeresh S J, Assistant Professor led the group.

Objectives

- To provide the knowledge about the Drinking Water Treatment.
- To know how the Drinking Water Treatment be a remedy for our Environmental issues.
- To learn process of Drinking Water Treatment Facility.
- Knowledge of various equipments used in Drinking Water Treatment and principle of working.

Dr. Veeresh S J given instruction and precautions to students before entering to the treatment facility. Mr. Suresh, Plant In-charge welcomed and Mr. Dastgir given information on each unit working principle and their importance to Drinking Water Treatment. Mr. Zamir, explained the working principle of SCADA and showed live monitoring method of Drinking Water Treatment process. Following are the steps involved in Drinking Water Treatment process, they are

- Aerator Tank (Adding of oxygen molecules)
- Coagulation (Mixing of Alum and Lime)
- Flocculation
- Sedimentation
- Filtration
- Disinfection Chlorination

Aeration Tank

Aerator Tank : The addition of dissolved oxygen will enhance the oxidation of iron, Manganese and other metals to higher and more insoluble oxidation State, these precipitates will be removed in sedimentation basins and Filtration units.

Coagulation : Coagulation is the process of adding chemical reagents in a mixing Device to destabilize colloidal particles and allow them to agglomerate or flocculate with other suspended particles to form larger more readily settled particles, coagulations reaction are fast and occur in the rapid mixing device.

Coagulation Tank

Flocculation: Flocculation , flocculators provide gentle agitation of water that has been coagulated to promote particles, hydraulic or mechanically driven flocculators may be designed, flocculators follow the rapid mixing coagulation tank and proceed to sedimentation and filtration units.

Flocculation

Sedimentation: Allowing a solid particles to settle down at bottom of the tanks and Exposing the water to relatively quiescent conditions will allow solid be removed by the action of force of gravity, the sludge accumulated in these tanks may be disposed by in landfills or water source downstream of withdrawal point for the water supply.

Sedimentation Tank

Filtration: Fine solids that did not settle out in a sedimentation basin will be entrapped in the filter, there also will be significant removal of bacteria in a filter and also a larger microorganisms such as protozoan's are completely removed in a properly operated filter.

Chlorination: Addition of chlorine to water ,this method is used to kill Bacteria, viruses and other microbes in water to prevent Waterborne diseases such as cholera, dysentery and typhoid.

Chlorination

At final Step the Treated water is stored in big tank and supplied to various Overhead tank situated at various regions after we went to see Blueprint /Diagram Copy of whole plant at office there we met Plant Manager **Mr.Sameer** explained us the whole process of purification by showing the Digital Blueprint and we thanked Mr.Sameer and Dastagir for explaining the process of plant in a simple manner, at final we took a group snap with Dastager and we left the place.

Conclusion

It was a great experience to visit the Harihara City Drinking Water Treatment Facility, Harihara, Davanagere (D), Karnataka. Students got lot of information with live Drinking Water Treatment process. Students have learnt more about the importance of Drinking Water Treatment Facility for purification of drinking water. Students thoroughly gain the knowledge on steps involved in Drinking Water Treatment and working principle of each unit.
