### Collaborative Letter

I am happy to say that, **Dr Manasa. D. J**, Assistant Professor Department of Studies in Botany, Davangere University, Shivagangothri, Davangere-577 007, Karnataka, India is my research collaborator in the field of nanotechnology research. Our research collaborations resulted in successful publication of research papers in good impact factor journals.

I feel the collaboration and idea exchange was very fruitful and I am of the opinion that this can be continued in coming years in related to publication, organization of conferences, students exchange programmes, publishing book chapters, getting research grants etc.

I look forward for brighter days in our research collaboration.

A handwritten signature in blue ink, appearing to be "Manasa", with a long horizontal stroke extending to the right.
